

Blue Water Ditching: Training Professional Crewmembers for the Unthinkable Disaster

Captain Dave Montgomery aims to fill the void on the topic of blue water ditching by placing all of the pertinent data into the hands of crew members. By addressing fears, questions, job assignments, and preparations, Montgomery's guide is suitable for pilots and crews of all experience levels. With firsthand accounts, facts, recommendations, checklists, procedures, and techniques, Blue Water Ditching is the first of its kind to prepare crew members from preflight planning to emergency touchdown and survival after the water landing.
